THE **CHRISTMAS NEWS**

FOR 1901.

A UTAH-COLORADO EDITION.

The Christmas edition of the "News" this year will be printed on Saturday, December 21st, 1901. It will contain an exhaustive review of the year's developments in business, mining, commerce, real estate, building, and all other branches of business, and will form the most elaborate compilation of the resources and attractions of Utah which has ever been issued.

Our sister state, Colorado, and its industries and attractions will be well represented in the issue, many beautiful views of Denver and Colorado scenery being given. A big part of the edition will be circulated in Denver, and Colorado's principal

Especially attractive articles will be prepared by a corps of selected writers, and leading men of the community will contribute timely articles on current topics.

As the holiday number will be issued several days ahead of Christmas, it will form an invaluable advertising medium to local dealers for the Christmas trade. The general advertiser could find no better means for reaching the people of the great west. The "News" will pledge a circulation of at least 20,-000 copies for the Christmas issue. Special rates will be accorded advertisers who wish their notices printed in the Semi-Weekly News as well, giving them a total cilrcution of nearly 45,000 copies.

SALT LAKEGETS CONVENTION Next Annual Gathering of Electrical Workers Will be Here.

J. F. Buckley of the Utah Light & Power company has returned from St. Louis with victory on his banners. Through his efforts backed by the other western delegates the next annual convention of the International Brotherhood of Electrical Workers will be held in this city next September. The other cities in the contest were Indianapolis, New Orleans, Cincinnati, Louisville, Baltimore, Minneapolis and San Fran-cisco. Salt Lake's most formidable rival was Indianapolis. It was only the delegates, however, who voted for Salt Lake. The matter must yet be referred to the 14,000 members of the order. Mr. Buckley has no fear as to the outcome as most of the delegates pledged their word that they would work faithfully

The last convention was held at St. Louis, where the delegates were treated royally, but Mr. Buckley has no fears as to the ability of the people of Salt Lake to do the grand thing by the 300 delegates and their wives,

There were chairs down the aisles and people standing up against the walls at the Twenty-second ward meeting house last evening on the occasion of an illustrated address on the "Moral Value of a Practical Education," by Prof. W. Stewart of the University of Utah. The lecture was illustrated by stereopticon views manipulated by Prof. D. R. Allen, who later in the evening took the audience on an imaginary trip through Yellowstone Park. In all about one hundred views depicting practical work in the University and scenes in the National Park were projected on the screen. The temarks of Prof. Stew-art were listened to with marked interest, especially those devoted to the effort to combine a practical education with booklearning.

WESTERN STOCK MARKET.

31.-In so much as the cattle receipts at Kansas City during October, 1900, were the larget on record for any one month, a considerable falling off was anticipated for October this year. anticipated for October this year. Such is not the case, however, since October receipts foot up over \$70,000 and less than 19,000 short of October last year. Hog receipts for October aggregate 226,000 against 241,000 last ar and the sheep supply amounted to 7,000 as compared with 123,000 last etaber.

On the cattle market during the past week, conditions were practically re-versed as compared with a few weeks previous, the prime corn steers having declined slightly while grass caltle prices showed some advance. Corn cattle did not go lower to any great extent and top dressed beef steers sold up to 6.45 as late as Thursday, including western fed cattle up to 6.10. Grass steers ranged all the way fr in 2.25 to 5.25 in value and were in better demand than for some time. The ter condition is causing a great many thin cows to be thrown on the market and the heavy consignments have been played upon to some extent by packers. Very thin cows, weighing under 700 pounds sell around 1.65 to 2.10 and the better grades of rangers averaging 700 pounds upwards changed hears an echo of the recent drouth beriod, but, quality considered, prices compare favorably with this time last year.
